The Audi S3 Sedan

Precision, from start to stop.

With the combination of 2.0 TFSI turbocharged 4-cylinder engine and torque-splitter, the Audi S3 Sedan delivers 333 hp with fierce precision. Accelerating from 0 to 100 km/h in just 4.7 seconds, it delivers maximum torque of 420 Nm between 2,100 and 5,500 rpm. This ensures strong, responsive performance throughout most everyday driving conditions.

The upgraded S tronic transmission delivers double-speed gear changes under load, while quattro all-wheel drive and torque splitter refine handling on every surface. The result is a high-performance sedan that's not just quick, but balanced; providing the kind of all-round control that turns spirited driving into your everyday standard.

Performance, in every line.

In the S3 Sedan, form follows function and function follows purpose.
Matrix LED headlights with animated sequences set a dynamic tone upfront, while new lighting signatures front and rear let you define your own visual identity. Defined by its chrome detailing and vertical spoiler struts, the updated front-end gathers inspiration from Audi's motorsport roots.

Red brake calipers and matte chrome mirror housings deliver motorsport cues, while the Black appearnace package and optional 19-inch Audi Sport wheels turn presence into impact. At the rear, quad tailpipes and a sculpted diffuser complete the car's assertive stance.

Whether parked or in motion, every detail on the Audi S3 Sedan speaks one clear language: performance, no translation needed.

The S makes the difference.

The interior of the Audi S3 Sedan is athletic and refined. From the red-accented stitching to the multifunction leather steering wheel, every detail is tuned for performance. Ambient lighting and high-res digital displays complete the cabin, while split-fold seats and 325 litres of luggage space deliver the versatility your life demands.

Technical specifications.

Compact in size, powerful by nature. Every spec on the S3 Sedan reflects Audi's drive to blend intelligent engineering with dynamic performance and refined control.

Engine

Engine type	Inline 4-cylinder engine, petrol
