A true powerhouse

The Audi RS Q8 performance has strength in every sense. It combines the commanding size of the Q8 with the proven engineering of the RS performance line, delivering an exceptional balance of performance, practicality, and long-distance comfort. With 471 kW of power from its V8 engine, quattro all-wheel drive, air

suspension, and a host of high-performance features, this model is designed for those who expect their vehicle to perform consistently and without compromise; whether that's tackling an open road or making the everyday drive feel special.

Leaves a lasting impression

The RS Q8 performance follows the design language of the Audi Q family but sharpens every angle with purpose.

The wide, RS-specific body styling gives it a lower, broader stance, while features like the gloss black Singleframe grille and enlarged air intakes create a confident yet refined look.

Twin oval tailpipes, a roof-edge spoiler, and flared wheel arches reinforce its Audi Sport identity in a way that's instantly recognisable.

Performance

Power equipped
with precision

Beneath the bonnet is a 4.0-litre TFSI V8 engine that delivers 471 kW and 850 Nm of torque. This enables 0-100 km/h in just 3.6 seconds; numbers more familiar to a high-performance coupe than an SUV of this size.

Power is distributed via Audi's quattro permanent all-wheel drive system with a sport differential, ensuring confident traction in a wide range of driving conditions.

The RS adaptive air suspension sport system intelligently adjusts ride height and damping, improving stability at speed and comfort during daily driving. The standard RS ceramic brake system provides fade-resistant stopping power for those who demand more from their vehicle than typical driving ever requires.

It's no surprise that the RS Q8 performance is the most powerful series-production combustion model in the history of Audi Sport GmbH.

Comfort without compromise

Inside, the RS Q8 performance offers a premium, driver-focused environment designed to match its capability.

RS sport front seats, generous rear passenger comfort, four-zone climate control and ambient lighting make every journey relaxed and refined.

Carbon twill inlays, a black headliner and RS badging subtly reinforce its performance credentials without overwhelming the space.

Visual rhythm.

Engineered for presence

Visibility and recognition are enhanced by standard HD Matrix LED headlights with Audi laser light. These advanced headlights include dynamic turn signals and adaptive high beam technology that automatically adjusts light distribution based on surroundings.

At higher speeds, the Audi laser light extends forward visibility for greater confidence on night drives. At the rear, OLED tail lights with five RS-specific lighting signatures combine striking design with functional clarity.

Ambient intelligence at your fingertips

Interior lighting is more than a design element - it's an interface.

The RS Q8 performance includes the contour ambient lighting package plus, which offers multi-colour, customisable lighting zones throughout the cabin.

These lights not only improve night-time visibility and highlight design features, but also help create a calming, tailored atmosphere suited to long hours on the road or night-time urban driving. The lighting system integrates seamlessly with the Audi MMI, allowing adjustment with just a few taps.

Innovation seamlessly integrated

Audi's MMI Navigation plus system features two high-resolution touchscreens in the centre console and a fully digital RS-specific Audi Virtual Cockpit behind the steering wheel. All performance data, from real-time torque distribution to G-meter readings, is available at

a glance. Voice control, wireless smartphone interface, Audi phone box with wireless charging, and USB-C ports ensure constant connectivity. The Bang & Olufsen 3D Premium Sound System delivers exceptional clarity for a fully immersive listening experience.

Not just paint. A presence.

Every thread speaks RS

Seating in the RS Q8 performance balances ergonomics with luxury.

The front RS sport seats are finished in high-quality Valcona leather with RS-specific perforation and contrast honeycomb stitching. Functions such as heating, ventilation, and massage are included for maximum long-haul comfort.

Seat memory is standard, and the rear bench is fully usable for adults, providing practicality without compromising support.

Power comes full circle

The RS Q8 performance rides on striking 23-inch wheels available in a variety of designs.

These large-diameter wheels not only enhance the vehicle's athletic stance, but they also improve cornering stability and contribute to overall performance dynamics. The size allows for the standard RS ceramic braking system, giving the RS Q8 performance stopping power to match its speed.

These wheels were engineered not just for aesthetics, but for precision, strength, and balance - reflecting the vehicle's performance legacy in every turn.

Standard equipment

Wheels

- > Audi Sport wheels, 6-Y-twin-spoke, Silk Matt Gray, gloss turned finish, 10.5J x 23, 295/35 R23 tyres
- > RS ceramic brakes, front & rear, with brake calipers in Blue
- > Tyre pressure monitoring system
- > Tyre repair kit
- > Wheel bolts with anti-theft protection and loose wheel detection

Performance and suspension

- > 48-V electric system and active battery cooling
- > Adaptive air suspension sport
- > Audi drive select
- > Electromechanical power steering
- > Mild hybrid
- > Quattro (with self-locking centre differential)
- > RS sport exhaust system
- > Start-stop system

Lighting

- > Digital OLED rear lights
- > HD matrix LED headlights with Audi laser light

Exterior Equipment

- > Exterior mirror housings in Matt Grey
- > Exterior mirrors, electrically adjustable, heated and folding, automatic dimming, with memory function
- > Panoramic glass roof
- > RS bumpers in bodycolour (full paint finish)
- > RS door sill trims
- > RS roof edge spoiler
- > Singleframe mask in Black
- > Window trim strips in Matt Grey with Audi rings and emblem in chrome look

Standard equipment

Interior Equipment

- > 4-way lumbar support for the front seats
- > 4-zone deluxe automatic air conditioning
- > Ambient lighting package plus
- > Comfort centre armrest, front control buttons in Gloss Black with haptic feedback and aluminium-look interior
- > First-aid kit with warning triangle
- > Floor mats, front and rear
- > Front seats, electrically adjustable with memory function
- > Headlining in cloth, Black Inlays, Aluminum Race, Anthracite
- > Interior mirror, automatically dimming, frameless
- > ISO FIX child seat mounting and top tether for the rear seat bench
- > ISO FIX child seat mounting for the front passenger seat
- > Leather steering wheel, 3-spoke with multifunction, shift paddles and steering wheel heating
- > Loading sill protector, stainless steel
- > Luggage compartment lid, electrically opening and closing
- > Rear seat bench plus
- > Seat heating, front and rear
- > Seat ventilation and massage function, front
- > Sport seats plus, front
- > Stainless steel pedals and footrest
- > Steering wheel adjustment, electric
- > Sun visors, front, sliding
- > Sunshade, electric for the rear side windows, manual for the rear window
- > Upper and lower interior elements in leather
- > USB ports with charging function in the first and second seat row
- > Valcona leather upholstery and trim, perforated with honeycomb pattern

Standard equipment

Safety and convenience

- > Adaptive cruise control with speed limiter, efficiency, swerve and turn assist
- > Airbags, front; front passenger airbag can be deactivated
- > All-wheel steering
- > Anti-theft alarm
- > Audi pre sense front
- > Audi pre sense rear
- > Convenience key with sensor-controlled release of the luggage compartment lid, with Safelock
- > Electric luggage compartment cover
- > Head-up display
- > Lane departure warning with emergency assist
- > Park assist with parking system plus
- > Power latching function for doors
- > Side airbags, front and rear and head airbag system
- > Side assist with exit warning and rear cross-traffic assist
- > Surround view cameras
- > Trailer hitch

Audio and communications

- > Audi Application Store and smartphone interface
- > Audi connect emergency call & service with Audi connect remote & control
- > Audi connect navigation & infotainment
- > Audi phone box
- > Audi virtual cockpit plus with additional RS layout

Audi Vorsprung durch Technik
