

A4

Many are still travelling.

But you have arrived.

Forward thinking. From Audi.

The new Audi A4: dynamic, precise, incisive. Assured by a combination of sporty aesthetics, innovative technologies and functional everyday usability. Strikingly visible in the progressive design with precisely honed front-end looks and characteristic rear profile. Clearly reflected in the 30 assist systems¹ for your convenience. An impressive experience wherever you're headed. This is how fascinatingly multifaceted your journey can be.

The figures for fuel consumption and CO₂ emissions can be found on page 30.

Some of the equipment illustrated or described is optional equipment for which an extra charge is made. Please contact your Audi partner or visit www.audi.com for detailed information about standard and optional equipment.

¹Please note: The systems work only within system limits and assist the driver. However, the driver remains responsible for driving the vehicle and is required to be attentive at all times.

Where others
see only darkness
at night ...

**you
see the
details.**

Look good by day, see more at night. Thanks to strikingly designed Matrix LED headlights that cast a bright, uniform light across the road. With dynamic indicators and special light signature. And thanks to the pulsating coming home/leaving home function of the headlights and rear lights when locking and unlocking the vehicle. A shining example of progressiveness right down to the last detail.

Time to take a different path? Absolutely. And with the Audi A4 allroad quattro, it can be on virtually any terrain, thanks to dynamic all-wheel drive, damper-controlled suspension and raised ride height. The car's independent character is powerfully expressed visually, too. From the Singleframe, the allroad emblem on the side sills, the striking air inlets and door sill trims through to the rear diffuser in matt selenite silver. Typically allroad quattro.

Most head straight
for their destination.

You
take
pleasure
in detours.

Set in stone?

**You
revel in
freedom.**

Complex functions, simple to operate. With the MMI touch and its large high-resolution 10.1-inch touchscreen display, you have both control and a clear overview. But of what exactly is entirely up to you. Thanks to functions on demand – bookable optional features – your vehicle is equipped to handle whatever challenges you may face. Simply book via myAudi. The choice is entirely yours. For one month, one year or permanently. Select from among several options for MMI navigation plus, DAB and the Audi smartphone interface.

Grand gestures?

You follow your intuition.

It's great when you don't have to make any compromises to get where you're going. Just like in the Audi A4. You can control the display, infotainment and comfort functions on the high-resolution screen of your MMI touch just as you would on your smartphone. Personal configuration options and intuitive menu design add to the convenience. Navigation, telephone, music, news feeds and basic vehicle settings are easily managed with the touch of a finger.

The figures for fuel consumption and CO₂ emissions can be found on page 30. Some of the equipment illustrated or described is optional equipment for which an extra charge is made. Please contact your Audi partner or visit www.audi.com for detailed information about standard and optional equipment.

Others think only of work.

It's possible to feel good everywhere. In the Audi A4. High-tech, functionality and design are brought together harmoniously in the interior. The interior architecture emphasises the horizontal and exudes weightlessness and space. High-quality materials, refined tactile qualities and precision workmanship create a luxurious ambience. Head, shoulder and legroom dimensions ensure a generously spacious feel. There is also a voice assistant that performs certain vehicle functions for you and makes operating the MMI easier. Simply make your requests using natural, everyday language. In your own words. No pre-defined words and phrases are needed. Enjoy the drive.

**You appreciate
balance.**

Looking for keys and space? Then look no further. The sensor-controlled luggage compartment lid release responds to foot gestures. And all passengers can enjoy the generous amount of space on offer, along with impressive luggage capacity. The rear seat backrest can also be released remotely and partly or fully folded to create a flat luggage compartment floor – resulting in much more storage space.

Plentiful storage space.

And endless possibilities.

The figures for fuel consumption and CO₂ emissions can be found on page 30. Some of the equipment illustrated or described is optional equipment for which an extra charge is made. Please contact your Audi partner or visit www.audi.com for detailed information about standard and optional equipment.

Just enjoy the drive.

**And
the variety.**

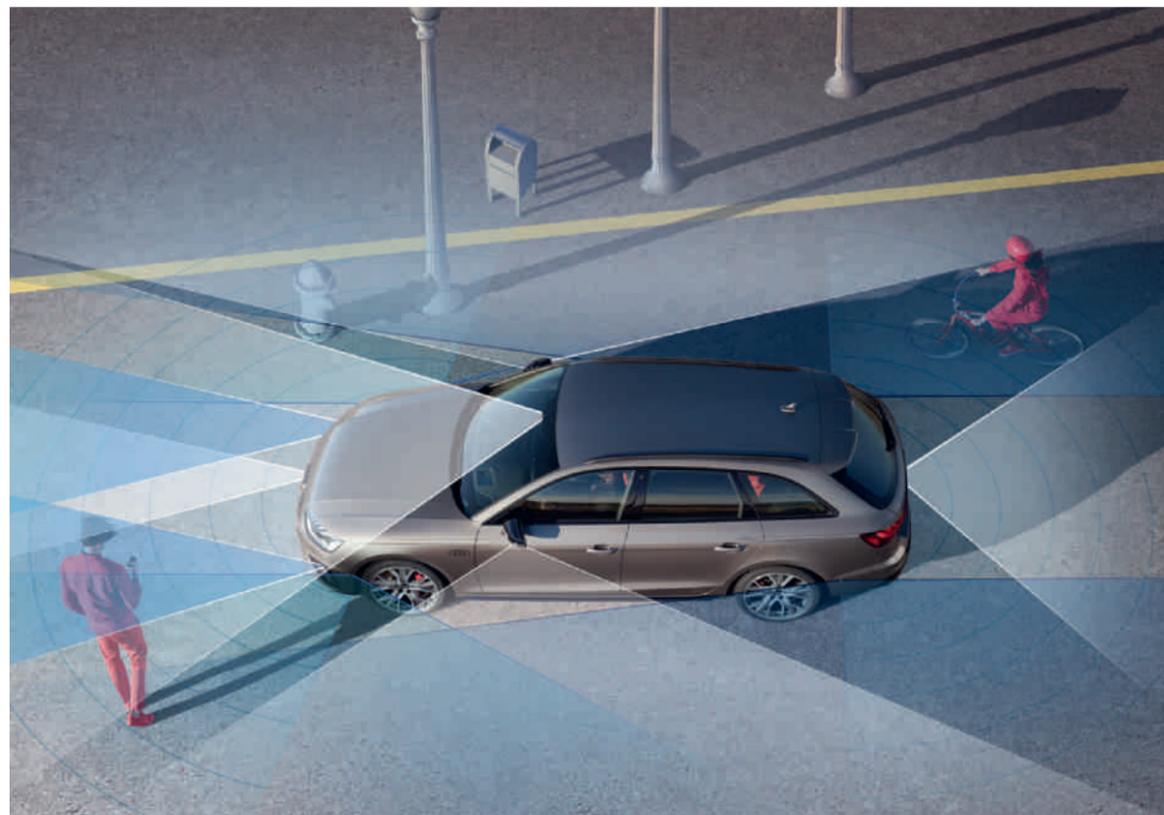

Your driving style is not always the same. So why should your vehicle settings be? With Audi drive select, you can adapt the character of your Audi A4 to suit your own driving style as it changes. Choose from five different modes: dynamic, comfort, auto, individual and efficiency. The settings of the sport and comfort suspension with damper control can also be adjusted with Audi drive select. Experience the full spectrum of driving dynamics and efficiency with virtually no compromises.

¹Please note: The systems work only within system limits and assist the driver. However, the driver remains responsible for driving the vehicle and is required to be attentive at all times.

An assistant?

You have 30.

Keep your distance, stay in lane. Navigate narrow alleys safely. Don't exceed the speed limit. Know what's up ahead. When turning off, watch out for oncoming traffic. We've given a lot of thought to all the things you need to keep in mind while behind the wheel and have developed 30 assist systems¹ to support you in matters of speed, efficiency, avoidance manoeuvres and turning.

19

Surely some journeys are less fun? Not in the Audi A4 allroad quattro. Its quattro all-wheel drive promises driving stability and dynamic cornering performance on virtually every route. The suspension with damper control ensures a smooth ride or firm handling depending on the driving situation. The dynamic steering, which is adjustable via Audi drive select, responds directly at low speeds around town and when manoeuvring. At motorway speeds, it delivers confident straight-line directional stability. An offroad mode also allows you to continue exploring away from the tarmac. Because driving pleasure is not about the situation you're in, it's about the vehicle you're in.

For you, driving pleasure begins

where for others it stops.

The figures for fuel consumption and CO₂ emissions can be found on page 30. Some of the equipment illustrated or described is optional equipment for which an extra charge is made. Please contact your Audi partner or visit www.audi.com for detailed information about standard and optional equipment.

While others are still adapting their thinking, in the Audi A4 you are already moving progressively forwards. Right from the start. Thanks to the Audi connect key function, for example, your Android smartphone becomes the digital vehicle key, assisting you with locking and unlocking your Audi A4. Innovative developments in diesel and petrol engines continue apace. In addition to direct fuel injection and turbocharging, engineers are employing compression and gas exchange methods. To squeeze the most out of every last drop of fuel. The mild hybrid system, for example, extracts drive energy from movement. That's how efficient forward momentum can be.

Many strive forwards.

**You drive
innovation.**

06

- 01_ Ski and luggage box — available in brilliant black or platinum grey and in three sizes: 300 l, 360 l and 405 l; can be used only in conjunction with the carrier unit, available separately; roof box bags — tailor-made for the ski and luggage boxes, with waterproof base. Available in 3 sizes: S (43 l), M (76 l) and L (82 l); cast aluminium wheels — in 5-arm sidus design, size 8.5 J x 19
- 02_ Entry LED — projects the Audi rings onto the ground when the vehicle door is opened. Available in a set of 2 for the front or rear¹
- 03_ Partition grille — for the luggage compartment. Easy installation — no drilling required
- 04_ Dualfix i-SIZE child seat — for little ones from birth to 105 cm tall. The seat rotates 360° to allow children to get in and out comfortably; can be installed in a forward- or rear-facing position as required. Can be secured only using the ISOFIX child seat mounting
- 05_ All-weather floor mats — exact fit, made from hard-wearing and 100% recyclable plastic
- 06_ Exterior mirror housings — in carbon, available ex works or as a retrofit option from your Audi partner.

Audi Genuine Accessories are available from AUDI AG for an extra charge. Accessories are not factored in when calculating the vehicle's fuel consumption and emission figures. As such, accessories can be fitted only after initial registration. Please contact your Audi partner or visit www.audi.com for detailed information about standard and optional equipment. You will find specifications on the technical characteristics of tyres on page 31.
¹ Standard for the edition one.

Classifications of tyre parameters

The table shows the ranges of fuel efficiency, wet grip and exterior noise emission classes for the different tyre sizes of the Audi A4 Saloon, the Audi A4 Avant and the Audi A4 allroad quattro.

	Tyre size	Fuel efficiency class	Wet grip class	Exterior noise emission class
Summer tyres	205/60 R 16	C–B	B–A	72–70
	225/50 R 17	C–B	B–A	72–68
	225/55 R 17	C	A	70–69
	245/40 R 18	E–B	B–A	72–70
	245/45 R 18	C	A	71
	245/35 R 19	E	B–A	72–67
Winter tyres	245/40 R 19	E	A	72
	255/35 R 19	E	B–A	73–66
	205/60 R 16	E–C	C	72–68
	225/50 R 17	E–C	C–B	72–71
	225/55 R 17	E–C	B	72–68
	245/40 R 18	E–C	B	72
All-season tyres	225/45 R 18	E–C	B	72–70
	245/45 R 18	E	C	70
	225/50 R 17	B	C	69

It is not possible to order a specific tyre.
Ask your Audi partner about the range of tyres available in your country.

Important note

Special information about the wheels: Wheels with gloss turned or gloss milled finish as well as polished or partly polished aluminium wheels must not be used in wintry road conditions. For manufacturing reasons, the rim surface does not have sufficient corrosion protection for such use and can be damaged permanently by road salt or similar.

Equipment for the Audi A4 Saloon illustrated (p. 2–27):
Paint finish: terra grey, metallic
Wheels: Audi Sport cast aluminium wheels in 5-arm Torsio design²
Seats/seat upholstery: sport seats, front in fine Nappa leather, cedar brown with contrasting stitching in granite grey
Inlays: aluminium ellipse, grey
Further equipment: Audi design selection

Equipment for the Audi A4 Avant illustrated (p. 2–27):
Paint finish: terra grey, metallic
Wheels: Audi Sport cast aluminium wheels in 5-V-spoke star design in matt titanium look, gloss turned finish^{2,3}
Seats/seat upholstery: S sport seats, front in fine Nappa leather, magma red with contrasting stitching and piping in anthracite
Inlays: aluminium ellipse, grey
Further equipment: edition one

Equipment for the Audi A4 allroad quattro illustrated (p. 2–27):
Paint finish: quantum grey
Wheels: cast aluminium wheels in 5-twin-arm V design
Seats/seat upholstery: sport seats, front in leather/artificial leather, okapi brown with contrasting stitching and piping
Inlays: oak natural, grey

Explanatory notes

¹ The specified fuel consumption and emission data have been determined according to the measurement procedures prescribed by law. Since 1 September 2017, certain new vehicles are already being type-approved according to the Worldwide Harmonized Light Vehicles Test Procedure (WLTP), a more realistic test procedure for measuring fuel consumption and CO₂ emissions. Starting on 1 September 2018, the New European Driving Cycle (NEDC) will be replaced by the WLTP in stages. Owing to the more realistic test conditions, the fuel consumption and CO₂ emissions measured according to the WLTP will, in many cases, be higher than those measured according to the NEDC.

For further information on the differences between the WLTP and NEDC, please visit our website. We are currently still required by law to state the NEDC figures. In the case of new vehicles which have been type-approved according to the WLTP, the NEDC figures are derived from the WLTP data. It is possible to specify the WLTP figures voluntarily in addition until such time as this is required by law. In cases where the NEDC figures are specified as value ranges, these do not refer to a particular individual vehicle and do not constitute part of the sales offering. They are intended exclusively as a means of comparison between different vehicle types.

Additional equipment and accessories (e.g. add-on parts, different tyre formats, etc.) may change the relevant vehicle parameters, such as weight, rolling resistance and aerodynamics, and, in conjunction with weather and traffic conditions and individual driving style, may affect fuel consumption, electrical power consumption, CO₂ emissions and the performance figures for the vehicle.

² Please note the special information relating to wheels on page 31.
