Junior quattro "Pikes Peak"¹

The latest technology combined with an old legend. The new A1 Sportback was the inspiration behind the working LED light signature in the headlights and rear lights. Fibre optics allow for individual segments to be illuminated, producing an unmistakable visual statement. The battery compartment is concealed under the seat. True to the style of the Audi Sport quattro S1 Pikes Peak from 1987, the body and rims are in white. The corresponding sticker set rounds off the legendary rally look of this children's car. A push pole to help parents guide the vehicle is available as an accessory. For children aged between 18 months and 3 years. Made in Germany.

Material: robust vehicle body made from PE, manufactured using plastic blow moulding
L/W/H: 71.5 × 29 × 37 cm

Apart from the steering rod and steering wheel, the vehicle is fully assembled.

Junior quattro push pole²

A passion for the original.

Audi drivers have high expectations. Even the details must have that thrill factor. The same goes for the Audi miniatures, which reflect the extraordinary fascination of the originals on a small scale. That way your customers can bring to life and relish the spirit of the four rings in the comfort of their own home, too.

Audi collection *Miniatures*

The Audi miniatures are manufactured with the same precision and passion as their full-size counterparts. At the end of the day, even Audi's smallest products receive the four rings only when the quality is compelling right across the board.
