

The Audi
e-tron Sportback

The Audi e-tron Sportback

Electrifyingly fun
to drive.

Powerful dynamic with electric drive

The new Audi e-tron Sportback impresses with an athletic sill, large single-frame octagon design, BEV Coupe SUV body style and the unmistakable sloping Sportback roofline. The Audi e-tron Sportback's all-electric drive system, front and rear axles each have an electric motor and a total output of up to 408 hp, providing a start-off performance comparable to that of a sports car. This new electric all-wheel drive system provides optimal traction and handling in all driving situations.

**Everyday driving meets
an extraordinary drive.**

The Audi e-tron Sportback

Intelligent solutions on the move

The world happens all around you, and with front and rear cameras as well as an array of sensors, the available Driver Assistance features in the Audi e-tron Sportback can help you see what's coming. New, stylistically defining details, such as the special daytime running light signature, the electric charging flap, the lack of exhaust pipes, and stitching on the seats reminiscent of an electric circuit board, transmit a clear signal that the Audi e-tron is fully electric.

Charge the future

Audi e-tron 55 & Audi e-tron Sportback 55 can be charged with up to 150 kW at high-output DC charging stations. This allows you to charge up 80% of your battery in just 30 mins.

For a range of around 110 kilometers, the customer can spend just under 10 minutes at a fast charging terminal. Offering 2 charging ports, the Audi e-tron Sportsback offers the highest AC and DC charging capability in class.

The Audi e-tron battery has a warranty of 8 years or 160 000kms. Individual cells can be replaced independently, if required.

The Audi e-tron Sportback

Sophistication in every detail

The Audi e-tron Sportback comes with numerous innovative technologies such as the option of virtual exterior mirrors that project images into the vehicle via a small camera. Interior digital technologies such as the Audi virtual cockpit and MMI support enhance functionality. The optional panoramic glass roof ensures a pleasant, light-flooded interior and improved ventilation.

Connect to the future

The Audi e-tron Service range is tailored to you and your Audi, providing the experience, equipment and care you expect. Service and maintenance checkups for the Audi e-tron Sportback are less frequent, and less expensive as there is no engine oil. And brake pads last longer and are only replaced based on service check results due to the sophisticated brake recuperation system.

Combined with the Audi warranty, you can be assured that when you buy your Audi e-tron Sportback, Audi AG provides you with a three-year warranty through your selected Audi Partner for which the statutory regulations apply. If there is ever an issue with your vehicle, please inform your Audi Partner, who will then arrange the next steps.
